

# **Material Safety Data Sheet**

Document Code: WBWoodStain/MW Version: 03 Date of Preparation April 2, 2003

# Section 1 - Product and Company Identification

PRODUCT NAME & NUMBERS HMIS CO					
MINWAX <sup>®</sup> Water-Based Wood Stain			Health	1*	
1801 Vermont	: Maple 180	5 Colonial Pine	Flammability	0	
1802 English	n Oak 180	6 White Oak	Reactivity	0	
1803 America	an Walnut 180	7 Clear Tint Base			
1804 Rosewoo	bd				
MANUFACTURER'S NAME EMERGENCY TELEPHONE NO.					

MINWAX Company 10 Mountainview Road Upper Saddle River, NJ 07458 EMERGENCY TELEPHONE NO. (216) 566-2917 INFORMATION TELEPHONE NO. (800) 523-9299

#### Section 2 – Composition/Information on Ingredients

% WT.	CAS No.	Ingredient Name	Vapor Pressure

No ingredients in these products are hazardous as defined by the Department of Labor except for:

6	13463-67-7	Titaniı	um Dioz	cide (	1806, White Oak only)
		ACGIH	TLV	10	mg/m3 as Dust
		OSHA	PEL	10	mg/m3 Total Dust
		OSHA	PEL	5	mg/m3 Respirable Fraction
0-1	1333-86-4	Carbon	Black		
		ACGIH	TLV	3.5	mg/m3
		OSHA	PEL	3.5	mg/m3

## Section 3 – Hazards Identification

ROUTES OF EXPOSURE

Exposure may be by INHALATION and/or SKIN or EYE contact, depending on conditions of use. To minimize exposure, follow recommendations for proper use, ventilation, and personal protective equipment. EFFECTS OF OVEREXPOSURE

Irritation of eyes, skin and upper respiratory system. In a confined area vapors in high concentration may cause headache, nausea or dizziness. SIGNS AND SYMPTOMS OF OVEREXPOSURE

Redness and itching or burning sensation may indicate eye or excessive skin exposure.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE

None generally recognized.

CANCER INFORMATION

Smile

For Complete Discussion of Toxicology Data Refer to Section 11.

#### - Continued -

## Section 4 – First Aid Measures

If INHALED:	If affected, remove from exposure. Restore breathing. Keep warm
	and quiet.
If on SKIN:	Wash affected area thoroughly with soap and water. Remove
	contaminated clothing and launder before re-use.
If in EYES:	Flush eyes with large amounts of water for 15 minutes.
	Get medical attention.
If SWALLOWED:	Do not induce vomiting. Get medical attention immediately.

## Section 5 – Fire Fighting Measures

FLASH POINT	LEL	UEL		
>200 °F PMCC	N.A.	N.A.		
FLAMMABILITY CLASSIFICATION - Not Applicable				
EXTINGUISHING MEDIA - Carbon Diox	ide, Dry Che	mical, Alcohol Foam		
UNUSUAL FIRE AND EXPLOSION HAZARD	S			

Closed containers may explode (due to the build-up of pressure) when exposed to extreme heat. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention.

SPECIAL FIRE FIGHTING PROCEDURES

Full protective equipment including self-contained breathing apparatus should be used. Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat.

#### Section 6 – Accidental Release Measures

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Remove all sources of ignition. Ventilate the area. Remove with inert absorbent.

## Section 7 – Handling and Storage

STORAGE CATEGORY - DOL Storage Class IIIB PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE

Keep container closed when not in use. Transfer only to approved containers with complete and appropriate labeling. Do not take internally. Keep out of the reach of children.

## Section 8 – Exposure Controls/Personal Protection

PRECAUTIONS TO BE TAKEN IN USE

Use only with adequate ventilation. Avoid contact with skin and eyes. Avoid breathing vapor and spray mist. Wash hands after using.

These coatings may contain materials classified as nuisance particulates (listed "as Dust" in Section 2) which may be present at hazardous levels only during sanding or abrading of the dried film. If no specific dusts are listed in Section 2, the applicable limits for nuisance dusts are ACGIH TLV 10 mg./m3 (total dust), 3 mg./m3 (respirable fraction), OSHA PEL 15 mg./m3 (total dust), 5 mg./m3 (respirable fraction).

Removal of old paint by sanding, scraping or other means may generate dust or fumes that contain lead. Exposure to lead dust or fumes may cause brain damage or other adverse health effects, especially in children or pregnant women. Controlling exposure to lead or other hazardous substances requires the use of proper protective equipment, such as a properly fitted respirator (NIOSH approved) and proper containment and cleanup. For more information, call the National Lead Information Center at 1-800-424-LEAD(in US) or contact your local health authority.

## Section 8 - Exposure Controls/Personal Protection (continued)

```
VENTILATION
Local exhaust preferable. General exhaust acceptable if the exposure to
materials in Section 2 is maintained below applicable exposure limits. Refer to
OSHA Standards 1910.94, 1910.107, 1910.108.
RESPIRATORY PROTECTION
If personal exposure cannot be controlled below applicable limits by
ventilation, wear a properly fitted organic vapor/particulate respirator approved
by NIOSH/MSHA for protection against materials in Section 2.
When sanding or abrading the dried film, wear a dust/mist respirator approved
by NIOSH/MSHA for dust which may be generated from this product, underlying paint,
or the abrasive.
```

```
PROTECTIVE GLOVES
```

Wear gloves which are recommended by glove supplier for protection against materials in Section 2.

EYE PROTECTION

Wear safety spectacles with unperforated sideshields.

## Section 9 – Physical and Chemical Properties

PRODUCT WEIGHT	8.55—8.92 lb/gal	EVAPORATION RATE	Slower than Ether		
SPECIFIC GRAVITY	1.03-1.07	VAPOR DENSITY	Heavier than Air		
BOILING POINT	212-369 °F	MELTING POINT	Not Available		
VOLATILE VOLUME	84-86 %	SOLUBILITY IN WATER	Not Available		
VOLATILE ORGANIC COMPOUNDS (VOC Theoretical)					
2.8-3.5 lb/gal Less Federally Exempt Solvents					
0.6-0.8 lb/gal	Emitted VOC				

#### Section 10 – Stability and Reactivity

STABILITY - Stable CONDITIONS TO AVOID - None known. INCOMPATIBILITY - None known. HAZARDOUS DECOMPOSITION PRODUCTS - By fire: Carbon Dioxide, Carbon Monoxide HAZARDOUS POLYMERIZATION - Will not occur

#### Section 11 – Toxicological Information

CHRONIC HEALTH HAZARDS

Carbon Black is classified by IARC as possibly carcinogenic to humans(group 2B) based on experimental animal data, however, there is insufficient evidence in humans for its carcinogenicity.

Rats exposed to titanium dioxide dust at 250 mg./m3 developed lung cancer, however, such exposure levels are not attainable in the workplace.

#### TOXICOLOGY DATA

CAS No.	Ingred	ient Nar	ne	
13463-67-7	Titani	um Dioxi	ide	
	LC50	RAT	4HR	Not Available
	LD50	RAT		Not Available
1333-86-4	Carbon	Black		
	LC50	RAT	4HR	Not Available
	LD50	RAT		Not Available
Section 12 – Ecological Information				

ECOTOXICOLOGICAL INFORMATION - No data available.

### Section 13 – Disposal Considerations

WASTE DISPOSAL METHOD Waste from these products is not hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.

Incinerate in approved facility. Do not incinerate closed container. Dispose of in accordance with Federal, State/Provincial, and Local regulations regarding pollution.

## Section 14 – Transport Information

No data available.

#### Section 15 – Regulatory Information

SARA 313 (40 CFR 372.65C) SUPPLIER NOTIFICATION No ingredients in these products are subject to SARA 313 (40 CFR 372.65C) Supplier Notification. CALIFORNIA PROPOSITION 65 WARNING: These products contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. TSCA CERTIFICATION All chemicals in these products are listed, or are exempt from listing, on the TSCA Inventory.

#### Section 16 – Other Information

CANADIAN DISTRIBUTOR: Consumer Brands Canada Inc. 200 Confederation Parkway Vaughn, ON L4K 4T8

NOTE: These products have been classified in accordance with the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

····

The above information pertains to these products as currently formulated, and is based on the information available at this time. Addition of reducers or other additives to these products may substantially alter the composition and hazards of the product. Since conditions of use are outside our control, we make no warranties, express or implied, and assume no liability in connection with any use of this information.
